

COMPANY SAFETY & ENVIRONMENTAL POLICY

The Company is committed to a health and safety program, which strives to provide the support and resources necessary to protect all workers, managers, general public, property and the environment while providing our Clients with quality workmanship.

Safe working practices and compliance with all applicable Government regulation enables us to remain competent, competitive and ensures new business in the future. It is an important part of our business plan.

Being the owner, I am responsible and accountable for the health and safety performance of my company. Ongoing improvement in all areas of safety awareness and practice is our goal.

The Company will at all times listen to the workers feedback and address any safety issues in identifying any concerns and take the corrective actions.

All employed by *The Company* will endeavor to employ safe working practices by using personal protective equipment as required, identifying hazards and taking the adequate measures to control them.

The Company and all of its representatives will strive to meet or surpass all applicable regulatory requirements and safety management practices on all worksites, as required by law and our Clients.

Failure to follow a safe work practice, places us all at risk. All employed by this company are responsible for maintaining this safety program. Therefore by working together we will all share in the benefits of a safe and accident free workplace, which protects us all and secures our future together.

In providing a safe and healthy work environment, drugs and alcohol will not be tolerated, as per the company's substance abuse policy.

Everyone has the right and the responsibility to refuse work when unsafe conditions exist.

Chris Walther
Owner & Operations Manager:

Date: February 20, 2007

This Company will not tolerate any disregard on the above policies.
